

KB Technologies SL PaySelectByPO

Need to select AP documents for payment by **PO Number?**

The Advanced Selection function of the AP Payment Selection screen allows the user to select documents for payment based on almost any field...except Purchase Order Number.

SL PaySelectByPO can do it!

With SL PaySelectByPO, Dynamics SL users can easily select documents for payment based on the related purchase order number. Select the PO Nbr field in the Advanced Selection window, apply an operator (Equal, Greater Than, In, etc.), and supply a value. That's it! Easy to install. Effortless to use. A real time-saver.

Parent	Select Field *	Operator *
<None>	PO Nbr	Equal

Never any recurring maintenance fees! Each copy includes free technical support and updates. Upgrades require re-purchase.

Product Overview

Use the Advanced Selection function of the AP Payment Selection screen to select documents for payment based on the related purchase order number.

Easy to install!

Effortless to use!

Saves time in the payment selection process!
